Skills

Languages: C++, Python, JavaScript
AI/ML: PyTorch, Machine Learning, LLM APIs, RAG pipelines (pgvector)
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs
Databases: MongoDB, PostgreSQL
Tools & Platforms: Git, GitHub, Docker, Postman, Next.js
Core CS: Data Structures & Algorithms, OOP, DBMS

Projects

JTrack
Job Application Tracker & JD-Based Resume Suggestion Tool

- Built a full-stack platform to track job applications end-to-end, from submission through offer status.
- Designed a job-description (JD) matching engine that analyzes postings and generates tailored resume improvement suggestions.
- Structured the data model to support multiple applications, statuses, and per-job suggestion history.

SupportAI
B2B AI SaaS for Customer Support & Lead Capture

- Solo-designed a customer support and lead-capture SaaS platform targeting SMBs, covering auth, knowledge base, and website chat widget.
- Architected a pgvector-based RAG pipeline for the AI chat engine, alongside a WhatsApp integration.
- Authored a detailed developer build plan with full PostgreSQL schema design.

Sevasarathi – AGV Fleet Monitoring Portal **5G Innovation Hackathon 2026**
Next.js, FastAPI, OpenCV

- Built a web portal for real-time monitoring and management of an indoor AGV fleet as part of a Top 50 national-finalist team.
- Implemented a ROS 2-to-HTTP bridge for real-time AGV telemetry.
- Prototyped real-time indoor object detection for AGV navigation using OpenCV and deep learning.

Education

National Institute of Technology, Patna **Jul 2024 – Jun 2028**
B.Tech, Electronics and Communication Engineering | CGPA: 7.91 (till 4th Semester)

Government Inter College, Dalmianagar **Mar 2024**
Higher Secondary (Science) | 80.6%

Position of Responsibility

Robotics Club, NIT Patna **Dec 2025 – Present**
Web Team Member

Certifications

- Postman API Fundamentals Student Expert
- AWS Artificial Intelligence Practitioner Learning Plan
- NPTEL: The Joy of Computing using Python (Elite Gold / Topper)
- Finishing School Program on 3D Printing & Additive Manufacturing Technology

Achievements

- Top 50 National Finalist, 5G Innovation Hackathon 2026.
- Winner, Code the Uncoded 2024 (IEEE Student Branch, NIT Patna).
- Qualified the Internal Round of Smart India Hackathon 2025.
- Solved 700+ problems across DSA platforms, including 400+ on LeetCode.
- Qualified JEE Mains.
